## Leo E. Linbeck Jr. the Founder of FairTax.org was a former director of the Dallas Federal Reserve

Author: Brian D. Hill

Investigative Journalism of possible Super Rich pushed Fraudulent schemes by Brian D. Hill. I won't allow the Fair Tax if it's another scheme to take more money from the middle class and the working poor. I am tired of the super rich stealing from the people.

I had my suspicions over the Fair tax proposal because the Bilderberg's have used false messiahs, Environmentalism, incrementalism, and anything to push American citizens into socialism not to mention anything I do to attack the fair Tax Trap gains me lots of negative comment attacks.

So I got even more suspicions because I haven't received this many attacks since the Bilderberg Group hand picked the false messiah and puppet Barack Obama to become the next president and many attacking me on YouTube over my anti Obama videos. So then I have decided to do a little investigative journalism on FairTax.org and did background checks on all of the High Ups of FairTax.org.

According to my investigation **Leo E. Linbeck Jr.** the Founder of FairTax.org used to be apart of [Duke Energy's Board of Directors](#) and he is a past chairman and director of the **Federal Reserve Bank of Dallas Texas**.

Now the [Federal Reserve Bank of Dallas Texas](#) is one of twelve regional Reserve Banks in the Federal Reserve System. Also the Federal Reserve System is run by Bilderbergers not to mention has stolen trillions of dollars and so the only way that can be legally proven to get them indicted is to Audit the Federal Reserve System.

The fact that the Founder of the Fair Tax used to be a director of Dallas TX Federal Reserve System could mean the possibility that the Fair Tax Proposal is a trap and a fraud that will only make the poor poorer, make the super rich richer, and destroy the Middle Class.

There's also a chance this could tie the Bilderbergs into the Fair Tax Organization and it's not just Leo E. Linbeck Jr. who could be involved with the horrible Super Rich criminal bankers that want to enslave the world but also there is **Robert C. McNair** who is ranked **242** in the Forbes 400 Richest Americans. Robert who is the second founder of the Fair Tax Organization has a net worth of \$1.5 billion discovered on Forbes.com. Also only Billionaires can join the inner circle of the Bilderberg Group Billionaires club so there is a chance since he has made a net worth of \$1.5 billion then theres a very good chance he ties into the Bilderberg group even though he is not on the Attendee List or he could at least be a puppet.

So why would a bunch of rich elitist people want to propose the Fair Tax on all Americans? Well we know this tax won't be fair to all Americans because anytime the super rich propose something it is only for power, and greed. Also the super rich including the Bilderberg Group want to enslave

humanity by spreading their ideals of socialism under the guise that we will have fair pay, fair taxes, fair vacation time, a decent home, universal Health Care, and even be treated the same as everyone else but the flaws to socialism is that as long as the super rich elite bankers control over Government then this socialism system and taxation won't apply to them.

People keep telling me it's better to have a Fair Tax then a income tax but the super rich will again flee the requirements of taxation as always or finds a way to sock it to the poor so in other words we will be charged more so the super rich can stay materialistic while the poor will be completely trapped on Government welfare while the Middle Class may be downgraded to the poor.

Also when Billionaires recommend the Fair Tax it makes me suspicious that these super rich men aren't just doing it because they want a fair tax, they are doing it to get something in return. Obama has also been advocating for the Value Added tax which would be just as bad if not worse then the Fair Tax where when raw materials get sold to the factory it gets taxed then the factories sell it to the stores then gets taxed, and then sold from the stores to the consumers it gets taxed again.

So will my investigation end, not just yet. I have also found out the **Howard W. Horne, Sr.** the director of FairTax.org is also a George W. Bush supporter according to [Intelius](#). Also George W. Bush plus the Bush Family is at the heart of the Military Industrial Complex and the New World Order.

Also Allen C. King according to [LinkedIn](#) is under the industry of Venture Capital & Private Equity.

This is what [Private Equity](#) means:

So are there Billionaires and serious business money makers interested in the Fair Tax? Well there has to be a larger benefit then loss when the Fair tax is enforced because a business is never suppose to make poor business decisions. Businessmen, especially an elitist as well as Bilderbergs, is suppose to always gain more then loses. A businessman is suppose to gain as much profits as possible so whats profitable with the Fair Tax? well for one thing they can circumvent it by traveling across the border into Canada or Mexico to purchase anything without being taxed and then avoid the Income tax as well.

So people for the Fair tax were wrong and I am not a liar because the Fair Tax is a way the Super Rich won't have to pay taxes ever again because they can purchase goods from other countries and then won't have to pay income taxes since the IRS will be abolished so in other words people like me that can't afford to keep going across the border will be forced to pay more heavy taxes every time I go shopping.

So is this a way of the super rich making the poor poorer? You Bet!

Could the Fair Tax Organization be run by a Bilderberg Group member or puppet? Highly likely!

What proof do I have? Well I did investigative Journalism and source links are below as well as links within the article.

Why only super rich businessmen? Does this mean the poor are again being strung along like labmice to support another legal theft of the poor and middle class by the super rich and powers that be.
